

Statement of inclusion.

The Little Acorns Day Nursery actively promotes and encourages inclusive practices and diversity.

Our aim is to make The Little Acorns Day Nursery available to all families who wish to use it, therefore enabling all children to experience their best possible learning outcomes.

We feel it is of the up most importance that all children are happy, healthy, safe and fulfilled whilst in our care.

With this in mind, all the staff will plan for, work with and at all times support children and their families therefore helping to meet their individual needs.

The Little Acorns Day Nursery always works in partnership with parents and other agencies (where appropriate).

This statement was checked, reviewed and updated in August 2012.
